The Communicator™ is a patented, FDA-registered device that provides a fog-resistant clear window for improved communication in settings where face masks are required. Designed to be worn in healthcare environments to protect both the patient and healthcare personnel from transfer of microorganisms, body fluids, and particulates.

Used by doctors, nurses, dentists, hygienists, orthodontists, interpreters, speech-language pathologists, educators, teachers and people who are seeking clearer communication with exceptional protection. Utilized in healthcare settings, surgery centers, laboratories, dialysis centers, educational institutions, distribution centers and businesses.

Features and benefits:

- FDA approved (K152561)
- Health Canada approved (MDEL 17617)
- CE DE/CA09/00186468
- ASTM F2100:
 - Level 1 (SKU FM86000-10) minimum barrier protection
 - Level 3 (SKU FM86001-10) maximum barrier protection
- ADA effective for visual communication, lip reading, and facial cues
- 100% sourced and manufactured in the USA
- Latex-free, hypo-allergenic
- Comfortable ear loop design
- Anti-fog clear window does not distort the sound of voices
- Recommended by medical professionals with hearing loss
- Safe'N'Clear: Woman-owned, certified Disability-Owned Business Enterprise, NC Statewide Uniform Certification
- Rising Eagle Medical, Authorized Distributor for Safe'N'Clear, is a Service Disabled Veteran Owned Small Business
