Surgical Facemask with Clear Window

The Communicator™ Surgical Facemask with Clear Window

Utilized in healthcare settings, surgery centers, laboratories, dialysis centers, educational institutions, distribution centers, and businesses. The fog-resistant clear window allows visual communication for lip reading to assist visual communicators in settings where masks are required. Supported by doctors, nurses, dentists, hygienists, orthodontists, interpreters, speech-language pathologists, educators, teachers and people seeking clearer communication with added protection.
